

CITY OF PLYMOUTH, CALIFORNIA
PLYMOUTH COLONY MONTHLY

Due to PG&E's Public Safety Power Shutoffs that we have been experiencing, more people are getting generators. **Please be aware:** Generators that will be hard wired to an electrical panel or plumbed for propane are required to have a Building Permit. Setbacks are required for property lines, operable windows, and any door or gravity air inlet into any building.

***** Contact City Hall for more information. *****

Building Permit forms are available online at cityofplymouth.org or at City

'Tis the season for leaves, leaves, leaves!! Please make sure to clean up your yard waste, because leaves will clog the storm drains and create flooding problems within the sewer system. ***Thank you!***
